WS SERIES

solidsteel
TO SERVE MUSIC AND NOTHING ELSE

MOD.	DESCRIPTION	Ext. SPECS (WxDxH mm)	Int. SPECS (WxDxH mm) & Weight		COLOUR
WS-5	Turntable Wall-Shelf	550x470x160/50	550x470x160/50 13 Kg		Black

The WS-5 is a rock-solid platform delivering reference-level isolation at an attainable price, weighing in at a massive 13 Kg (28 lbs). Form follows function, **the WS-5 supports even the heaviest of turntables**. Heavy gauge steel for the perimeter and the massive wall plate are complemented by graceful ouches adding air and life to what might otherwise have been a monolithic design. Rated to handle up to 60 Kg (130 lbs) with a large shelf (500 x 410 x 19 mm | 19.5" x 16.25" x 0.74"), the WS-5 works with almost any 'table made. Ridiculously sturdy, WS-5 touts a massive (50 mm | 2") tall by (25 mm | 1") thick steel outer frame welded to an extremely thick (150 mm | 6" tall) back plate. Ditto the proprietary Duraluminum isolation cones. **Leveling of the MDF shelf** (500x410x19 mm, laminate black finish) **may be fine-tuned via the four cone cups using an Allen key** (always included). The Italian-made WS-5 can even be mounted on brick and concrete provided you employ the proper connectors.

VL-4	Vinyl Storage Hi-Fi Rack	1280x410x958	480x410x325/225/225 51 Kg		Black Black Walnut

Our catalog is enriched with an essential and innovative range of supports designed to meet the most current needs of music lovers. Wheter you already have a largecollection of LPs, or you are just enriching it, whether you have a HI-FI system, or you are just setting it up step by step, this precious product range is a perfectsolution for all ambients. By depending on various LP's dimensions, **you can storage about 120 records records per each level**. If your collectionis too big, no worries: ask us for Extra-Kits able of expanding the avaible space.

The frame is made up of parts from our famous "S Series", all the screws are galvanized, frame pillars are made of anodized aluminium, carefully filled with an absorbent phono sponge to dampen vibrations. The various metal particulars are all galvanized and finished in powder-coated foravoiding any risk of rust over time.

The VL Series is composed of MDF shelves - 1280x410 mm, with a thickness of 22 mm - finished with high quality polymeric laminates in Walnut finish. Black is the new finish of the new collection (2022/23).

S2 SERIES

solidsteel
TO SERVE MUSIC AND NOTHING ELSE

S2-4 Black

S2-5 Black

Stands specifically designed for essential solutions, available only with three, four or five-level configurations.

The "S2 Series" is our entry-level product range. **This furniture is entirely modular and consists of shelves in MDF wood** (580x430 mm, thickness 22 mm) **in black melamine assembled on a metal frame of excellent italian quality**. The tubes are in anodized aluminium (30 mm in diameter); the screws, the upper and lower terminals made of galvanized metal (anti-rust), subsequently powder-coated; the traditional adjustable steel spikes (M8 of thread for eventual casters, not sold and not included). **Product always include our "S Series Pads - Protective floor discs in Inox"**, for a perfect efficiency of the stand.

The article is designed to support and enhance audio components such as: turntables, digital sources - players, amplifiers, DACs, streamers, radios, signal equalizers and portable PCs (well placed on the top shelf). It is not possible to modify the heights between the shelves with any customization kit. **Available in black finish only**.

S3 SERIES

solidsteel
TO SERVE MUSIC AND NOTHING ELSE

The "S3 Series" is our reference range of Hi-Fi racks. These products are pure expression of our passion for music and, more in general, for the audiophile world.

All materials are carefully made and selected, combined for finest efficiency. **The frame and its screws are made by galvanized metal parts, varnished with powder**. Anodized aluminium for the poles, which are also filled with damping material (sound absorbing foam). On the bottom our historical spikes, in stainless steel (M8 of thread), always adjustable. **The shelves** (of dimensions 580x430 mm, with 30 mm of thickness) **are in ennobled MDF wood** finished with beautiful polymer laminate of superb quality.

The racks are all modular, each level's height can be customized (min 145 mm and max 365 mm) and it's possible as well to add extra shelves after the purchase.
Our "S Series Pads - Protective Floor Discs" are always included into each S3 product.
A maximum of 60 kg can be loaded for each shelf. The power amp stands can support up to 120 kg.

S4-4	Hi-Fi AV Rack 4 Shelves	1114x430x910	500x430x245/225/225 51 Kg		Black

The "S4 Series" is the alternative wide version of our traditional range of furniture for Hi-Fi and AV components.
Ideal as well for TVs within 49" of width. The inner shelves proportions are the same adopted for the S3 Series racks.
All the materials are carefully made and selected, exclusively of italian origin. **The frame is made by galvanized metal parts**, varnished with powder, with screws and anodized aluminium poles filled with damping material (sound absorbing foam). The bottom spikes are our historical adjustable Inox tips (M8 of thread).
The shelves (of dimensions 1114x430 mm, with 30 mm of thickness) **are in ennobled MDF wood** finished with beautiful polymer laminate of high quality.
Since the racks are all modular, each level's height can be customized (min 145 mm and max 365 mm) and it's possible as well to add extra shelves after the first purchase.
Our "S Series Pads - Protective Floor Discs" are always included into each S4 product.

Adjustable X Plate  **SPECS (WxDxH):** 450x405x19 mm

The "S5 Series" is the most advanced line of our "S Series" range of traditional audio furniture for Hi-Fi and AV components.
These racks are technically featured by their double-adjustable-shelf system: the lower (called "X Plates") are positioned on the largers thanks to 4 aluminium cones per each level. Once regulated, every shelf is able of damping vibrationsat its best thanks to our engineered system. **Highly recommended for turnatable and tube amplifiers owners**.
The frame is made by galvanized metal parts, varnished with powder, with screws and anodized aluminium poles filled with damping material (sound absorbing foam). On the bottom there are our iconic adjustable Inox spikes (M8 of Thread).
The shelves (main: 584x430 mm, with 30 mm of thickness; "X Plate": 405x405, with 19 mm of thickness) **are in ennobled MDF wood** finished with beautiful polymer of high quality.
Since the racks are all modular, each level's height can be customized (min 145 mm and max 345 mm) and it's possible as well to add extra shelves after the purchase.
Our "S Series Pads - Protective Floor Discs" are always included into each S5 product.

SS SERIES

solidsteel
TO SERVE MUSIC AND NOTHING ELSE

Designed in 1992, **these iconic Solidsteel speaker stands represent the brand's top-of-the-range solution**, combining timeless design with outstanding functionality. The metal frame is entirely hand-welded using brass with acetylene and oxygen, ensuring exceptional structural integrity, long-term stability, and refined craftsmanship.

100% Made in Italy, the stands feature high-quality MDF top plates finished with an artisan lacquer, offering both acoustic neutrality and elegant aesthetics. **The structure is compatible with the majority of bookshelf and monitor loudspeakers on the market** and supports loads of up to 40 kg per stand.

The vertical frame sections are fillable, while adjustable stainless-steel spikes with protective floor discs are supplied for precise leveling and effective mechanical coupling.

A true Solidsteel classic, these speaker stands are designed for listeners who demand robustness, performance, and understated elegance from every component of their hi-fi system.

UL SERIES

solidsteel
TO SERVE MUSIC AND NOTHING ELSE

Designed to succeed the acclaimed NS Series, **the new UL Series represents the latest evolution of Solidsteel speaker stands**, combining advanced mechanical control with refined acoustic performance. Conceived as an active element within the listening chain, **the new UL Series has been engineered to optimize resonance management and improve the interaction between loudspeaker and stand**.

At the core of the design are two rectangular aluminium profiles mounted on a precision-engineered steel base plate and topped with two hollow TPU frames. Working in synergy with the MDF top plate, this architecture has been carefully developed to enhance mechanical damping and overall sonic clarity.

100% Made in Italy, the UL Series reflects Solidsteel's long-standing commitment to engineering precision, structural integrity and refined aesthetic design. Every component has been selected and manufactured to ensure reliability, acoustic consistency and timeless elegance.

The UL Series is supplied as standard **with a 160x160 mm MDF top plate**, while **an optional 200x200 mm version it is also available** to accommodate a wider variety of bookshelf and monitor loudspeakers. The range will be offered in two height options: **UL-4 and UL-6**.

The "HY Series" is our regular Hyperspike range with a four-pillar stainless steel frame configuration.
Since their launch in 2018, **these High-End racks became popular** in a few months and are the ideal choice for those who aim for an excellent stand with capacious shelves, heavy hardware parts and awesome finishes at an affordable price.
The frame is esclusively made by stainless steel Inox parts (40 mm of diameter) turned from full. The bottom parts are equipped **by our traditional adjustable Inox spikes** (M8 of thread).
The shelves (dimensions of 600x500 mm for the "Standard" version; 780x500 for the "Large" one; 30 mm of thickness) **are in MDF ennobled wood**, lacquared in a beautiful flat black finish.
Since the racks are all modular, **each level's height can be customized** (min 145 mm and max 325 mm) and it's possible as well to add extra shelves after the purchase.

HF Traditional Hyperspike

The "HF Series" is our famous and historical Hyperspike line with a four-pillar frame made of full stainless steel parts.
Introduced for the first time in the audio market in 2006, it is certainly an iconic symbol of our finest production.
These incredible High-End racks are a guarantee for audio systems: a rock-solid stand of exceptional value with a design carved over time, of unquestionable italinan charm.
The frame is esclusively made by stainless steel Inox parts (40 mm of diameter) turned from full. The bottom parts are equipped **by our hystorical Hyperspikes**.
The shelves (dimensions of 645x561 mm, 30 mm of thickness) **are in MDF ennobled wood**, lacquered in three different beautiful finishes: flat back, gross black and gloss white. The glossy finishes are very resistant against scratches. Since the racks are all modular, **each level's height can be customized** (min 145 mm and max 365 mm) and it's possible as well to add extra shelves after the purchase.

HW SERIES

solidsteel
TO SERVE MUSIC AND NOTHING ELSE

MOD.	DESCRIPTION	Ext. SPECS (WxDxH mm)	Int. SPECS (WxDxH mm) & Weight		COLOURS
HW-2L	AV Rack 2 Shelves	1280x410x386	1186x410x244 48 Kg		Flat Black Gloss Black Gloss White
HW-3L	AV Rack 3 Shelves	1280x410x620	1186x410x224/224 74 Kg		Flat Black Gloss Black Gloss White
HW-2XL	AV Rack 2 Shelves	1500x530x386	1186x530x244 54 Kg		Flat Black Gloss Black Gloss White
HW-3XL	AV Rack 3 Shelves	1500x530x620	1186x530x224/224 80 Kg		Flat Black Gloss Black Gloss White

The "HW Series" is our top historical Hyperspike range for what concerns the AV furniture in our catalogue.
The simplicity of its design is based on the elegance and refinement of its lines. A rack capable of being placed perfectly in any space, wheter it is a modern home or a more classic environment. It is no coincidence that it is the product most requested by architects and interior designers within our catalog.
The frame is made by stainless steel hardware parts from our Hyperspike range and under request it is also possible to customize it with spikes for increasing the technical level for the High-End components.
The shelves are in MDF ennobled wood, lacquared in three finishes: **Flat Black**, **Gloss Black and Gloss White**.
Since the racks are all modular, **each level's height can be customized** (min 145 mm and max 245 mm without spikes; min 145 and max 345 mm with HY/HF Spikes) and it's possible as well to add extra shelves after the first purchase.

HFW-3XL

solidsteel
TO SERVE MUSIC AND NOTHING ELSE

Flat Black

MOD.	DESCRIPTION	Ext. SPECS (WxDxH mm)	Int. SPECS (WxDxH mm) & Weight		COLOURS
HFW 3XL	AV Rack 3 Shelves	1500x530x845	684x530x305/305 90 Kg		Flat Black Gloss Black Gloss White

The HFW-3XL represents the evolution of our historical HW Series with the advanced technical frame of the HF Series. Designed for audiophiles and interior-conscious users alike, it offers a refined and minimal aesthetic capable of fitting naturally into both modern and classic environments.

Built around the top-of-the-line stainless steel hardware of the HF Series, **the HFW-3XL features oversized shelves measuring 150x53 mm**, **available in Flat Black, Gloss Black and Gloss White finishes**. **The wider structure and the generous 305 and 305 mm spacing between shelves** allow the accommodation of even the largest High-End components without compromise.

Thanks to its increased dimensions, **reinforced architecture**, **and a load capacity of 140 kg per shelf**, the HFW-3XL delivers outstanding solidity and sonic performance, ensuring maximum stability and optimal vibration control. This configuration allows users to place an entire audio/video system on a single rack, avoiding the need for multiple furniture units while maintaining a clean and coherent setup.

Elegant, modular and uncompromising, the HFW-3XL is conceived for those who seek both technical excellence and timeless design in one complete solution.
